unites business since 2012

# FEEDBACK ABOUT THE ASSOCIATION RUSLOM.COM

**Alexander Shepelev,**  
**General Director of Taurus Motors LTD**

“Membership in RUSLOM.COM is an effective tool for developing our business. It allows you to be in the thick of all the industry’s significant events. The Association is purposefully engaged in comprehensive education of its members, introduces them to new technologies, laws and other initiatives, and also builds communication with government agencies. The channel is the ship with which we are moving on the same course! Hugs to everyone»

“The National Recycling Association «RUSLOM.COM» has existed for more than 10 years, has come a long way over the years and has made a huge contribution to the development of the industry for handling scrap and waste of ferrous, non-ferrous and precious metals.

Now the Association «RUSLOM.COM» unites almost all the main companies in the industry, is recognized as an authoritative full partner by government agencies and other industry associations, actively cooperates in the field of lawmaking, including self-regulation, the creation of GOSTs, industry standards and licensing requirements, provides enormous comprehensive assistance to industry enterprises (consulting, legal, expert, marketing, advertising, analytical and informational).

The Association team is highly qualified professionals who organize the important and complex work of the association, always ready to respond to requests from members of the Association.

It is important to note the transparent activities of the Association and add that the results of the activities of Self Regulated Organizations (SROs) with voluntary membership in exercising control over the entrepreneurial or professional activities of their members can be recognized by state control (supervisory) bodies that carry out (organize) types of control in relation to SRO members, on the basis of an agreement on recognition of the results of such activities by the SRO, concluded by the SRO with the control (supervisory) body. The Association is always open to cooperation and accepting new members.”

**Lev Liokumovich, Head  
of the Legal Department  
of the Scrap Collection  
Complex of the Directorate  
for Legal Affairs  
UK UVM**

## FEEDBACK ABOUT THE ASSOCIATION RUSLOM.COM

**Technopark UG Met, director,  
Viktor Dvorovoy**

“Thank you to the Association for your contribution to the development and quality of work of our group of companies in such a complex and dynamically changing scrap market. Over the years of cooperation, we have received enormous practical benefits at all levels, from ordinary employees to TOP managers, and this is, first of all, thanks to the Association’s training and uniting industry participants, which lead to the opening of new opportunities for each participant.”

“The industry position is what government authorities are focused on today. Any changes today go through industry expertise, in which there is no single voice, there is a consolidated position of the majority. And only you have the decision to be in this “voice”, in this examination, or not.”

**Natalya Belyaeva,  
General Director of Delphi LLC**

**Mandarin payment platform. Director of the Payment Services  
Department Artur Avanesyan**

“Mandarin is a member of many industry associations and self-regulated organizations. We can with confidence, to say that there are only a few as useful for the industry and responsible as Ruslom. There is a sense of constant contact not only with the participants, but also, most importantly, with the various branches of government. This is extremely important because representing the interests and pain points of the industry is a key function of any association. Ruslom copes with this 1000%!”

### **Yulia Shish, LLC «AVANGARD»**

“Membership in RUSLOM.COM helps in stabilizing and developing our business in difficult economic times for our industry. The association guides you to make the right decisions in the financial and legal fields, as well as to expand the base of counterparties, which entails building up business connections, and ultimately business profitability! Thank you for this project and the support provided!”

# FEEDBACK ABOUT THE ASSOCIATION RUSLOM.COM

**Technomet Cherepovets,  
Sergey Zotsenko, beneficiary**

“We have been cooperating with RUSLOM.COM for more than 5 years. This allows us to always be the first to learn about changes in legislation and the market, and to be aware of all significant events. Also, thanks to constantly held forums and meetings, it is possible not only to learn the valuable experience of other companies, but also to make partners in different regions of our country, since RUSLOM.COM perfectly helps in matters of communication. An atmosphere of friendship and cooperation always reigns in the RUSLOM.COM team, for which Special thanks to them!”

«Today we accepted a company from the Zaporozhye region as members of the Association. Even if those who are not always sure that they will be able to join the meetings, but even they find reasons for themselves to join. Isn't it the best argument in favor to join Ruslom.»

**Alexey Alipchenko, member of the  
Presidium of the RUSLOM.COM Association**

**Ruslan Nosov, Project  
Manager QIWI Bank (JSC)**

“In 2017, QIWI Business, together with the RUSLOM.COM Association, became the first to present a solution for non-cash payments with scrap collectors - special prepaid cards.

Over the entire period of our cooperation, RUSLOM has established itself as a reliable business partner, with whom we can always find the optimal solution. The Association provides assistance to scrap producers: protects their rights and interests, participates in discussions of industry legislation. Thanks to RUSLOM, we quickly receive information about the problems of scrap collectors and can make our service for non-cash payments even more convenient.”

**«PROMMETYUG» LLC Tolokhyan Artur Asvaturovich Director**

“Membership in RUSLOM.COM sets the vector of direction for the scrap industry, thereby maintaining market balance. Thank you for the productive cooperation!”

## FEEDBACK ABOUT THE ASSOCIATION RUSLOM.COM

**Oleg Sviksha,**  
CEO  
LLC «RosMet»  
Saint Petersburg

I would like to take this opportunity to express my sincere gratitude to the RUSLOM.COM team for their long-term and fruitful cooperation!

It is obvious that we, as members of an SRO, have a number of undoubted advantages over scrap metal companies that are not members of this organization:

- on behalf of the SRO, the position of participants in the scrap market of the Russian Federation on various issues is voiced in government structures, which is of great importance in the current difficult economic conditions;
- legal and information support is provided;
- organizing events such as forums, business intensives and study tours to various regions of the Russian Federation, as well as abroad, really help us not only keep up with the times, but also determine the prospects for the development of new and existing areas of activity.

I wish RUSLOM.COM to continue its mission, not to rest on its laurels, to find new solutions for the qualitative and numerical growth of the organization! Your success = our success!!!”

“The RUSLOM.COM Association is one of the most expert and authoritative platforms in the field of regulation of the waste management industry, in particular metal scrap. Enterprises of the Acron Holding Group of Companies were among the first to join this self-regulatory organization and see the Association as a reliable partner, regularly receiving consulting support, assistance in promoting industry initiatives, and operational analytical information.”

**STELLA LLC, Sergey Veselovsky, Director**

“Membership in RUSLOM.COM is a legal safety net that provides guidance for the competent management of all business processes in the organization, the development of new economic directions, and the protection of the interests of association members! Thank you for the productive assistance provided in resolving controversial situations and the opportunity to expand your business!”

# INFORMATION ABOUT THE ASSOCIATION RUSLOM.COM

**National Recycling Association RUSLOM.COM** is official industry association of scrap and metal waste processors in the country, which has the status of a national self-regulatory organization. SRO participants are companies from among the procurement structures of metallurgical plants, independent processors, exporters and traders who are leaders in the market and government programs. Members of the Association NSRO «RUSLOM.COM» have 100% of the shredding capacity of Russia and 75% of the market in terms of consumption of steel scrap in Russia, at least 60% of non-ferrous scrap procurement. As well as processors of scrap containing precious metals, incl. electronic scrap, precious metal scrap. In addition, the members of the Association are leaders in the export and import of scrap, suppliers and manufacturers of equipment and technologies.

**Our mission** is to ensure the resource and environmental security of Russia by means of returning recoverable materials to the economic turnover

**Our goal** is to create a high-tech metal recycling industry in Russia.

# MANAGEMENT structure

- The highest governing body is the **General Meeting of Association members** (all members of the SRO have the right to vote and submit initiatives).
- **Collegial governing body** - 17 representatives - Presidium (elected by the general meeting)
- **Chairman of the Presidium** - President of the Association (elected by the general meeting)
- **Sole governing body** - Director of the Association (elected by the general meeting)
- **Audit Commission** - Elected by the General Meeting
- **Disciplinary Committee** - Elected by the Presidium

**Specialized bodies** (help implement the strategy and tasks of the General Meeting and the Presidium, develop an expert industry position, prepare responses to requests from SRO members and authorities, etc.) <https://ruslom.com/spetsializirovannye-organy/>

You can apply for participation in the following committees and commissions:

- **Committee for the Protection of the Rights of SRO Members and Legal Risks**
- **Committee on Standardization, Science and Education**
- **Committee on Economics, Insurance and Financial Risks**
- **Committee for Information and Analytical Support and Monitoring**
- **Committee for Industry Development and Business Support**
- **Committee for waste management from construction, demolition (dismantling) of buildings and structures**
- **Committee for the Management of Scrap and Waste of Precious Metals**
